Calling Frequencies : 27.595 then QSY to any frequency for the QSO providing it is within your countries local laws and regulations. You can use 27.555 if your radio will not transmit on 27.595, I ask all where possible to use 27.595 to avoid making too much QRM on 555 for those who do not participate within the contest to give them a chance to make some DX.

27.275 : I recommend to use frequency 27.275 in the contest who has problems with radio police and has no opportunity to work higher than 27.405.

The first place single operator NON SD member will receive a trophy. The first placed Multi Operator NON SD member will receive a trophy.
